Subject: Brenda's Comments On RLSO HON Subpart F
Attachments: Potential Edits for Chemical Manufacturing Section 114 Component I Questions.docx

Importance: High

Hi Brenda, Andrew, and Tegan,

I reviewed the bubble comments that were recently added (by Brenda) in the RLSO file of HON subpart F on Sharepoint. Wow!...there are definitely some eye-opening things I had not noticed before! Anyway, I wanted to let you know that I have responded to the bubble comments with additional thoughts, suggestions, and/or helpful information. Also, the bubble comments prompted me to think about potential additional revisions to the section 114 component I questions...therefore, attached to this email is a Word version showing my suggested edits in tracked changes...I have **NOT** made any of these changes to the master files (Word nor Excel response template) because I wanted EPA to confirm that these changes are necessary.

Looking forward to hearing back from you on this,
Jason
